

2018 Japan-Taiwan

Joint Workshop on Scientific Computing and Related Topics

Date: 2018/11/24-26

Venue: R202, Astro-Math Bldg., NCTS

2018

Aim & Scope:

Japan-Taiwan joint workshop on scientific computing (or inverse problems) has a long tradition. It provides a platform for researchers from Japan and Taiwan working on related fields to share their recent works and to promote collaboration. In 2017, we organized the joint workshop at the beautiful Kanazawa city, Japan, on the subject of inverse problems. This year, we will focus on the scientific computing and related studies. The topics will include, but not limited to, finite element method, matrix computation, computational fluid dynamics, mathematical modeling, etc. We especially encourage young researchers to take part in the workshop.

Invited Speakers:

Taiwan

Chien-Hong Cho 卓建宏, National Chung Cheng University

Dean Chou 周鼎羸, National Central University

Wei-Fan Hu 胡偉帆, National Chung Hsing University

Tsung-Ming Huang 黃聰明, National Taiwan Normal University

Shih-Gang Liao 廖士綱, National Cheng Kung University

Te-Sheng Lin 林得勝, National Chiao Tung University

Matthew M. Lin 林敏雄, National Cheng Kung University

Ming-Cheng Shiue 薛名成, National Chiao Tung University

Chin-Tien Wu 吳金典, National Chiao Tung University

Suh-Yuh Yang 楊肅煜, National Central University

Japan

Hiroshi Fujiwara 藤原 宏志, Kyoto University

Daisuke Furihata 降旗 大介, Osaka University

Hitoshi Imai 今井 仁司, Doshisha University

Yuusuke Iso 磯 祐介, Kyoto University

Masato Kimura 木村 正人, Kanazawa University

Suguru Maekawa 前川 秀, Kyoto University

Norikazu Saito 齊藤 宣一, The University of Tokyo

Takashi Sakajo 坂上 貴之, Kyoto University

Tetsuro Tsuji 辻 徹郎, Osaka University

Organizers:

Hiroshi Fujiwara 藤原 宏志, Kyoto University

Hitoshi Imai 今井 仁司, Doshisha University

Yuusuke Iso 磯 祐介, Kyoto University

Jyh-Hao Lee 李志豪, Academia Sinica

Jenn-Nan Wang 王振男, National Taiwan University
