2021 Conference on Advanced Topics and Auto Tuning in High-Performance Scientific Computing

Plenary Speakers

Trista Chen
(Chief AI Officer, Inventec Corp.)

Invited Speakers

Meng-Huo Chen (National Chung Cheng University)
Ray-Bing Chen (National Cheng Kung University)
Takeshi Fukaya (Hokkaido University)
Toshiyuki Imamura (RIKEN)
Takeshi Iwashita (Hokkaido University)
Takahiro Katagiri (Nagoya University)
Jyh-Miin Lin (University of Cambridge)
Jenq-Kuen Lee (National Tsing-Hua University)
Kengo Nakajima (The University of Tokyo)
Satoshi Ohshima (Nagoya University)
Maxim Solovchuk (National Health Research Institutes)
Hiroyuki Takizawa (Tohoku University)
Hui-Hsu Gavin Tsai (National Central University)
Eh Tan (Academia Sinica)
Chin-Tien Wu (National Yang Ming Chiao Tung University)
Shu-Chih Yang (National Central University)
YungYu Zhuang (National Central University)

Organizers

How-Wei Chen (National Central University)
Feng-Nan Hwang (National Central University)
Takahiro Katagiri (Nagoya University)
Reiji Suda (The University of Tokyo)
Weichung Wang (National Taiwan University)
YungYu Zhuang (National Central University)

Sponsors

- Grant-in-Aid for Scientific Research (S), JPI9H05662, "Innovative Methods for Scientific Computing in the Exascale Era by Integrations of (Simulation + Data + Learning)"
- Information Technology Center, Nagoya University
- National Center for Theoretical Science, Mathematics Division
- National Central University, Department of Mathematics
- Taiwan Society of Industry and Applied Mathematics (TWSIAM)
