Hong-Yi Chen National Tsing Hua University

Ming Hsiao National Taiwan University
Ji Li Macquarie University
Chong-Wei Liang National Taiwan University
Keng Hao Ooi National Central University
Jian-An Wang National Taiwan University

Aim and Scope

The 2023 Symposium for Young Analysts aims to provide opportunities for young researchers and students who have received or who are about to receive their master's or doctoral degree in mathematical analysis to present their academic works, to learn about recent research developments, and to stimulate their mathematical thinking. This sort of colloquia has been held numerous times in the past and contributed to inspire young people doing theoretical research and create close interactions within the analysis community in Taiwan.

Organizers:

Hao-Wei Huang National Tsing Hua University
Chun-Yen Shen National Taiwan University
Daniel Eli Spector National Taiwan Normal University
