

NCTS-Kyoto Mathematics Symposium

Date 2023.12.9

Venue 4F, 5F Cosmology
Bldg. NTU

Aim & Scope

Exchanges between mathematicians in Taiwan and Japan have gradually become a tradition. This symposium aims to strengthen and broaden our research collaboration with mathematicians in Kyoto University. Topics include various subjects in pure and applied mathematics. Senior researchers, junior scholars, and students are all encouraged to participate.

Structure

Keynote Talks

In the morning@ R515

Parallel Sessions

In the afternoon@ R515, R509, R505, R601, Including 4 sessions

1. Number Theory and Representation Theory
2. Differential Geometry and Algebraic Geometry
3. PDEs and Dynamical Systems
4. Applied Mathematics and Fluid Dynamics

Poster Session

In the afternoon@ R505

Keynote Speakers

Jungkai Chen National Taiwan University
Takuro Mochizuki Kyoto University

Organizers

Kuo-Chang Chen National Tsing Hua University
Hiroshi Kokubu Kyoto University
Yng-Ing Lee National Taiwan University

Invited Speakers

Jung-Chao Ban National Chengchi University
I-Kun Chen National Taiwan University
Hiroshi Fujiwara Kyoto University
Yuika Kajihara Kyoto University
Syu Kato Kyoto University
Tasuki Kinjo Kyoto University
Ting-Yu Lee National Taiwan University
Yasunori Maekawa Kyoto University

Shu-Yen Pan National Tsing Hua University
Nobuo Sato National Taiwan University
Teppei Takamatsu Kyoto University
Keisuke Takasao Kyoto University
Masaki Taniguchi Kyoto University
Chung-Jun Tsai National Taiwan University
Shih-Hsien Yu Academia Sinica
Mei-Heng Yueh National Taiwan Normal University
