

**2024**

**NCTS YOUNG DYNAMICS DAY**

**DATE: MARCH 01, 2024**

**VENUE: ST527, SCIENCE TECHNOLOGY BUILDING, THU**

**Aim & Scope**

The primary goal of this mini workshop is to establish a platform for the younger generation within the dynamical systems community in Taiwan. Speakers are highly encouraged to present their research interests, projects with ambition or works in progress.

In this context, the workshop serves as a meeting for researchers to share their "mathematical dreams," rather than being limited to their research accomplishments. Anyone interested in dynamical systems is welcomed to participate, especially young scholars and graduate students.
