Date

19-21 June, 2024

Venue

R515, Cosmology Bldg., NTU

Aim & Scope

The “2024 NCTS Workshop on Dynamical Systems” will take place from June 19-21 at the National Center for Theoretical Sciences in Taiwan. The workshop will feature around twelve 50-minute presentations. Hosted by NCTS since 2001, the workshop aims to bring together active researchers from various fields of dynamical systems to discuss recent and prospective advancements in research. Participants will have the opportunity to exchange ideas and explore potential collaborations. This year, we have arranged talks on complex dynamics, ergodic theory, arithmetic dynamics, and differential equations, featuring leading international researchers who will share their latest results.
