

2024 NCTS Postdoc Symposium

Date

2024.9.9

Venue

R515+R505 Cosmology Bldg. NTU

Invited Speakers

Chi-Kang Chang
National Center for Theoretical Sciences

Chien-Hua Chen
National Center for Theoretical Sciences

Kuan-Wei Chen
National Center for Theoretical Sciences

Huy Quoc Dang
National Center for Theoretical Sciences

Simon-Raphaël Fischer
National Center for Theoretical Sciences

Nozomi Ito
National Center for Theoretical Sciences

Noe Kawamoto
National Center for Theoretical Sciences

Jose Luis Luna-Garcia
National Center for Theoretical Sciences

Yuan Shyong Ooi
National Center for Theoretical Sciences

Prasun Roychowdhury
National Center for Theoretical Sciences

Marco Sutt
National Center for Theoretical Sciences

Wei-Bo Su
National Center for Theoretical Sciences

Shun-Chieh Wang
National Center for Theoretical Sciences

Aim & Scope

The NCTS is a leading mathematical research center aiming to promote cutting-edge mathematical research and to cultivate young talents. The NCTS postdoctoral program has attracted many young mathematicians to start their academic careers here at NCTS. In addition to the Taipei Postdoc seminar which provides a platform for postdoctoral fellows to give an in-depth presentation of their research, we also organize an NCTS Postdoc Symposium each year in which we ask our postdocs to give short presentations on their research results. We hope that this event will lead to further interactions among the NCTS postdoctoral fellows.
