

The 15th Taiwan-Japan Joint Workshop for Young Scholars in Applied Mathematics

Date: 2025/03/03-05

Venue: National Cheng Kung University

Aim and Scope:

This workshop has been alternately hosted by Taiwan and Japan 14 times, boasting a long-standing history and tradition. Due to its significant success, the number of young speakers—including master's and doctoral students, as well as postdoctoral researchers—has grown from about 20 to 40-50 participants. It has also nurtured many promising young scholars in the academic community.

The organizing committee is composed of scholars from Taiwan and Japan who specialize in applied mathematics fields, such as partial differential equations, biomathematics, and mathematical modeling. Students and young scholars serve as speakers and session chairs. This workshop provides a valuable platform for young scholars from Taiwan and Japan to improve their English skills, expand their international perspectives, and establish academic connections. Ultimately, this initiative will positively impact the cultivation of long-term research talent in Taiwan.

Scientific Committee (Taiwan)

Chueh-Hsin Chang	National Chung Cheng University
Chiun-Chuan Chen	National Taiwan University
Jann-Long Chern	National Taiwan Normal University
Yan-Yu Chen	National Taiwan University
Jia-Yuan Dai	National Tsing Hua University
Yung-Fu Fang	National Cheng Kung University
Hung-Wen Kuo	National Cheng Kung University
Hsi-Wei Shih	National Cheng Kung University
Chang-Hong Wu	National Yang Ming Chiao Tung University

Scientific Committee (Japan)

Kota Ikeda	Meiji University
Tatsuki Kawakami	Ryukoku University
Harunori Monobe	Osaka Metropolitan University
Tatsuki Mori	Musashino University
Hirokazu Ninomiya	Meiji University
Toshiyuki Ogawa	Meiji University
Yuichi Togashi	Ritsumeikan University
Akiyasu Tomoeda	Kansai University
Shigetoshi Yazaki	Meiji University

Sponsors:

Taiwan

College of Science, National Cheng Kung University (NCKU)

Interdisciplinary Research Center on Mathematics (IRCM),

National Cheng Kung University (NCKU)

Mathematics Division, National Center for Theoretical Sciences (NCTS)

Mathematics Division, Science Promotion & Engagement Center, National Science and Technology Council (NSTC)

Taiwan Society for Industrial and Applied Mathematics (TWSIAM)

Japan

Meiji University

Meiji Institute for Advanced Study of Mathematical Sciences (MIMS)
