

The 27th Taiwan Geometry Symposium

Date/ 2025/05/03

**Venue/ Lecture Room B, 4th floor,
3rd General Building, NTHU**

Aim & Scope

The purpose of the Taiwan Geometry Symposium is to foster discussions and interactions within the geometry community in Taiwan. It hopes to meet regularly in the years to come, running on a Saturday from late morning to late afternoon, with 3~4 speakers.

The activity usually rotates among Taipei, Hsin-Chu and Tainan. We encourage everyone who is interested in Geometry, and particularly students, postdoctoral fellows and young scholars to participate in the Symposium. This semester's symposium will be held at National Tsing Hua University.

We hope to use this symposium to foster discussions and interactions within the geometry community in Taiwan and also discuss the future activities and directions of the geometry group of NCTS.

Invited Speakers

Pak-Yeung Chan
Wei-Yi Chiu
Nobuhiro Morita
Chung-Jun Tsai

National Tsing Hua University
