

2025 NCTS Workshop on Dynamical Systems

Date

05-06 June, 2025

Venue

R515, Cosmology Bldg., NTU

Aim & Scope

The “2025 NCTS Workshop on Dynamical Systems” will take place during 5-6 June at the National Center for Theoretical Sciences of Taiwan and is consisting of six 50-minute presentations and two mini-courses. This workshop has been hosted by the NCTS since 2001. We aim to bring active researchers from various fields of dynamical systems together so that they can discuss recent and prospective advanced in research. Participants will have opportunity to exchange ideas and explore potential collaborations. This year, we have arranged talks about complex dynamics, ergodic theory, arithmetic dynamics, and differential equations, featuring leading international researchers who will share their latest results.

Invited Speakers
