

2025 NCTS Postdoc Symposium

Date | 22025/09/08
Venue | R515+R505 Cosmology Bldg.NTU

Invited Speakers

Nicolau Aiex NTNU, NCTS Affiliate

Kuan-Wei Chen

Surjeet Choudhary

Tät Ghosh

Berta Hudak

Nozomi Ito

Seungmin Kang

Noe Kawamoto

Tzu-Mo Kuo

Jose Luis Luna-Garcia

Jhih-Hong Lyu

Joseph Muller

Yuan Shyong Ooi

Flora Poon

Harry Richman

Shun-Chieh Wang

Organizers

Ming-Lun Hsieh

National Center for Theoretical Sciences &
National Taiwan University

Yng-Ing Lee

National Center for Theoretical Sciences &
National Taiwan University

Aim & Scope

The NCTS is a leading mathematical research center aiming to promote cutting-edge mathematical research and to cultivate young talents. The NCTS postdoctoral program has attracted many young mathematicians to start their academic careers here at NCTS. In addition to the Taipei Postdoc seminar which provides a platform for postdoctoral fellows to give an in-depth presentation of their research, we also organize an NCTS Postdoc Symposium each year in which we ask our postdocs to give short presentations on their research results. We hope that this event will lead to further interactions among the NCTS postdoctoral fellows.
