

The 28th Taiwan Geometry Symposium

Date/ 2025/11/29

**Venue/ Room 4009-1,
College of Science, NSYSU**

Aim & Scope

The purpose of the Taiwan Geometry Symposium is to foster discussions and interactions within the geometry community in Taiwan. It hopes to meet regularly in the years to come, running on a Saturday from late morning to late afternoon, with 3~4 speakers.

The activity usually rotates among Taipei, Hsin-Chu and Tainan/ Kaohsiung. We encourage everyone who is interested in Geometry, and particularly students, postdoctoral fellows and young scholars to participate in the Symposium. This semester's symposium will be held at National Sun Yat-sen University.

We hope to use this symposium to foster discussions and interactions within the geometry community in Taiwan and also discuss the future activities and directions of the geometry group of NCTS.

Invited Speakers

Kui-Yo Chen

National Cheng Kung University

Hung-Lin Chiu

National Tsing Hua University

Ming Hsiao

National Center for Theoretical Sciences

Wei-Bo Su

National Central University

Organizers

Chih-Wei Chen

National Sun Yat-sen University

Nan-Kuo Ho

National Tsing Hua University

Chung-Jun Tsai

National Taiwan University

Mao-Pei Tsui

National Taiwan University
