Aim & Scope

The “2026 NCTS South Taiwan Workshop on Scientific Computing, Differential Equations, and Applications” will occur on March 06, 2026, at National Kaohsiung Normal University. This workshop, held annually since 2010, will feature one 60-minute presentation and five 50-minute presentations. The workshop's primary aim is to bring together active researchers from various fields of scientific computation and differential equations in South Taiwan to discuss recent developments and share prospective advances in their research.
