

2026

Taiwan-Japan Joint Workshop on Inverse Problems and Numerical Analysis

Date 2026/03/13-14

Venue R515, Cosmology Bldg., NTU

Aim & Scope

The Taiwan-Japan Joint Workshop on Inverse Problems and Numerical Analysis is an established annual academic event jointly organized by research communities in Taiwan and Japan. Since its inception, the workshop has been held regularly, with the host responsibilities rotating between the two countries. This sustained and reciprocal framework reflects the strong commitment of both sides to long-term academic collaboration and the continuous advancement of research in inverse problems and numerical analysis. The primary aim of the workshop is to provide a high-level international forum for researchers, faculty members, and early-career scientists to exchange recent theoretical advances, numerical methodologies, and computational techniques in inverse problems and related areas of numerical analysis. By fostering direct interaction among participants from both countries, the workshop promotes mutual understanding, knowledge transfer, and the development of joint research initiatives.

Invited Speakers

Japan :

Hiroshi Fujiwara	Kyoto University
Masato Kimura	Kanazawa University
Hisashi Okamoto	Gakushuin University
Kazunori Matsui	Tokyo University of Marine Science and Technology
Atsushi Suzuki	RIKEN
Hiroshi Takase	Kyushu University
Hideki Takuwa	Doshisha University
Kazumi Tanuma	Gunma University

Taiwan :

Jeng-Tzong Chen	National Taiwan Ocean University
Chien-Hong Cho	National Sun Yat-sen University
Wei-Fan Hu	National Central University
Pu-Zhao Kow	National Chengchi University
Yi-Hsuan Lin	National Yang Ming Chiao Tung University
Min-Jhe Lu	National Tsing-Hua University
Ming-Cheng Shiu	National Yang Ming Chiao Tung University
Shih-Hsien Yu	Academia Sinica

Organizers

Hiroshi Fujiwara	Kyoto University
Masato Kimura	Kanazawa University
Jenn-Nan Wang	National Taiwan University
