TAIWAN-VIETNAM
WORKSHOP
ON PDES AND APPLICATIONS

April 08–10, 2026
Vietnam Institute for Advanced Study in Mathematics
Hanoi, Vietnam

Objectives

The workshop will bring together specialists in Taiwan and Vietnam working on Partial Differential Equations (PDEs) and Applied Mathematics to present and discuss recent research developments in both the analytical and computational aspects of PDEs. It is also aimed at showcasing the wide-ranging applications of PDEs, concentrating on specific areas such as mathematical physics, mathematical biology, quantum mechanics, fluid dynamics, and geometric aspects of PDEs. The other goal is to create a collaborative platform for established experts, early-career researchers, and graduate students to interact, exchange insights, and simulate new research directions and collaborations.

In addition to the scientific agenda, we also plan to engage with students to introduce academic opportunities, including internships, PhD scholarships, and postdoctoral positions at several leading institutions in Taiwan.

Speakers

Cung The Anh, Hanoi University of Education, Vietnam
Jia Yuan Dai, National Tsing Hua University, Taiwan
Dinh Nho Hao, Institute of Mathematics, VAST, Vietnam
Nguyen Van Tien, National Taiwan University
Yen Chang Huang, National Yang Ming Chiao Tung University, Taiwan
Hsin Yuan Huang, National Yang Ming Chiao Tung University, Taiwan
Ngo Quoc Anh, VNU University of Science, Hanoi, Vietnam

Nguyen Dinh Thi, VNU University of Science, Ho Chi Minh, Vietnam
Nguyen Thieu Huy, Hanoi University of Science and Technology, Vietnam
Phan Thanh Nam, LMU Munich, Germany
Van Phung Truong Son, Ho Chi Minh City, Vietnam
Jenn Nan Wang, National Taiwan University
Weichung Wang, National Taiwan University
Chun Chi Lin, National Taiwan Normal University
Shih Hsien Yu, Academia Sinica, Taiwan
