

2026 NCTS Workshop on Dynamical Systems

Date

15-17 June, 2026

Venue

R515, Cosmology Bldg., NTU

Aim & Scope

The “2026 NCTS Workshop on Dynamical Systems” will take place during 15-17 June at the National Center for Theoretical Sciences of Taiwan and is consisting of 12 research talks. This workshop has been hosted by the NCTS since 2001. We aim to bring active researchers from various fields of dynamical systems together so that they can discuss recent and prospective advanced in research. Participants will have opportunity to exchange ideas and explore potential collaborations. This year, we have arranged talks about complex dynamics, ergodic theory, arithmetic dynamics, and differential equations, featuring leading international researchers who will share their latest results.

Invited Speakers

Yi-Chiuan Chen (Academia Sinica)
Chang-Yuan Cheng (National Kaohsiung Normal University)
Hiroyuki Inou (Kyoto University)
Yutaka Ishii (Kyushu University)
Tomoki Kawahira (Hitotsubashi University)
François Ledrappier (Université Paris-Saclay)
Gye-Seon Lee (Seoul National University)
Yu-Hao Liang (National University of Kaohsiung)
Seonhee Lim (Seoul National University)
Yoshitaka Saiki (Hitotsubashi University)
Yuki Takahashi (Saitama University)
Ya-Lun Tsai (National Chung Hsing University)

Organizers

Jung-Chao Ban (National Chengchi University)
Chih-Hung Chang (National University of Kaohsiung)
Kuo-Chang Chen (National Tsinghua University)
Cheng-Hsiung Hsu (National Central University)
Lien-Yung Kao (The George Washington University)
Guan-Yu Lai (Chang Gung University)
