National Center for Theoretical Sciences

2027
The Sixth Taiwan International Conference on Geometry

Date
2027/6/14–18
(Mini-course: 6/10–11)

Venue
R515, Cosmology Bldg., NTU

Aim & Scope

This conference is a series of triennial-year international conferences on Differential Geometry in Taiwan since 2011. An important area in Geometry will be specified as the main theme each time. Our purpose is to create a discussion and interaction platform in the chosen area, and at the same time to foster future co-operations and introduce new people into the field. The Sixth Taiwan International Conference on Geometry will be held at the NCTS from June 14 to June 18, 2027, Taipei, Taiwan, with a two-day mini-course on June 10 and 11, 2027.

Minicourses Speakers

- **Chao Li** (New York University)
- **Paul Minter** (University of Cambridge)

Invited Speakers

- **Costante Bellettini** (University College London)
- **Nicholas Edelen** (University of Notre Dame)
- **Michael Eichmair** (University of Vienna)
- **Giada Franz** (Université Gustave Eiffel)
- **Gerhard Huisken** (University of Tübingen)
- **Pei-Ken Hung** (University of Illinois Urbana-Champaign)
- **Brian Krummel** (The University of Melbourne)
- **Tang-Kai Lee** (Columbia University)
- **Chao Li** (New York University)
- **Zhenhua Liu** (Duke University)
- **Paul Minter** (University of Cambridge)
- **André Neves** (University of Chicago)
- **Richard Schoen** (Stanford University)
- **Leon Simon** (Stanford University)
- **Yoshihiro Tonegawa** (Institute of Science Tokyo)
- **Tatiana Toro** (University of Washington and SLMath)
- **Brian White** (Stanford University)
- **Neshan Wickramasekera** (University of Cambridge)

Organizers

- **Yng-Ing Lee** (National Taiwan University)
- **Chung-Jun Tsai** (National Taiwan University)
- **Mao-Pei Tsui** (National Taiwan University)
- **Mu-Tao Wang** (Columbia University)
