The 30th Taiwan Geometry Symposium

Date
2026/11/14-15

Venue
Liuying Jianshanpi Resort

Aim & Scope

The purpose of the Taiwan Geometry Symposium is to foster discussions and interactions within the geometry community in Taiwan. It hopes to meet regularly in the years to come, running on a Saturday from late morning to late afternoon, with 3–4 speakers.

The activity usually rotates among Taipei, Hsin-Chu and Tainan/ Kaohsiung. We encourage everyone who is interested in Geometry, and particularly students, postdoctoral fellows and young scholars to participate in the Symposium. The 30th symposium will be held at the Liuying Jianshanpi Resort.

We hope to use this symposium to foster discussions and interactions within the geometry community in Taiwan and also discuss the future activities and directions of the geometry group of NCTS.
